Status:** Flagged

Matthew,

As we would like to keep it on for 24hrs, so we would be happy to change the illumination level to 300cd/m, if that is more suitable for the areas and the neighbours.

Regards,

Natalie Munoz

Natalie,

Thank you for your e-mail with additional detailed drawings. These are very useful.

I have visited the site last week. I do not anticipate any major problems.

The only issue may be the brightness of the proposed illumination. If it is intended to be on 24 hours a day, I would suggest 300cd/m, rather than the 600 as proposed on the drawing.

Would this be acceptable? I will discuss with colleagues, but it would be useful to know if there is any room for manoeuvre?

Kind regards,
Matthew

From 1 October 2016 you will not receive a letter from us if your neighbour submits a planning application. You can still find out about planning applications:

- on new improved posters on lamp posts
- by signing up to [planning e-alerts](#)
- in the planning section of the [Camden Account](#)
- through adverts in the Camden New Journal and Ham & High

You can [sign up](#) to our new and improved planning e-alerts to let you know about new planning applications, decisions and appeals.

Dear Natalie,

Thank you for your e-mail yesterday.

In order to make a full assessment, please can you provide details about the proposed illumination?

This is a guide for what we need, Please show the following details on drawings:

- the method, type and brightness/colour of illumination
- o is it externally or internally lit?
- o type of lighting – spot lights, trough lights, halo illumination?
(Halo illumination is where the light is reflected onto the fascia so

the letters are presented in silhouette),
o the size of the light fittings.

· submit existing and proposed sections through any fascia or projecting sign making sure the section is cut through to show the illumination at scale 1:20.

Should you have any queries, please contact me?

Kind regards,
Matthew
