2016/5613/P	S Charkin	Silverdale Vale of Health London	24/10/2016 22:10:16	OBJ	Thank you for uploading the documents today. Having had a preliminary look at them we realise that this is a more major building project than we anticipated and we believe it will be difficult to assess the impact of the building works on neighbouring properties in the time currently allowed for comments. We are concerned about several aspects of the proposals and would like to seek an extension to the time allowed for comments to be made in order that we can have the opportunity to obtain our own professional advice.
