I would like to object to the building of even more flats or houses being built as West Hampstead is already very very crowded with people, traffic and commuters from the railway station.

West end lane and Mill lane and the joining area already come to stand still very often in a morning and an evening.

Adding to that ,at night with parking problems cause by so many bars and restaurants, enough is enough.

P.S. If you want do something helpful to the residents stop the way rubbish is dumped every night and morning from shops and restaurants, make a traffic lights at Iverson Rd junction no right turn at least and make some roads like Inglewood Rd, Dennington park Rd and Holmdale Rd one way
