Re: 2016/ 4890/P  
Wells Court Oriel Place London NW3 1QN

Dear Sir or Madam

I am writing to object most strongly to this planning application. If permitted, this development would become the tallest building in central Hampstead village, extending the skyline and creating a precedent for other aspiring builders. This would also significantly reduce the light and sunlight in the open spaces opposite Well Court.

The 3D projections and sunlight/light reports are misleading, no doubt intentionally so.

When will applicants who clearly seek to omit relevant information or to present clearly misleading data be held accountable? This must stop. It is unfair on Camden, and on residents and others impacted by such proposals.

Please simply reject this outlandish proposal and instruct them to keep to the existing skyline.

Thank you

Yours sincerely,

Harlan Zimmerman
