

## Licence Application Form

### Mitigation Licensing - Bats (up to three species)

**Please Note – Applications can be completed online.  
For more information please visit our [website](#).**

- Please complete this application form using dark ink and BLOCK CAPITALS.
- Return the completed form to the address shown.
- All questions should be answered as appropriate. Questions marked with "\*" are mandatory and failing to complete these may result in delays to your application.
- If there is insufficient space for completing answers on this form, please attach a separate sheet.
- Natural England will aim to determine the outcome of a completed licence application within its published service standards.
- If you experience any problems completing this application or using the online Case Work Management (CWM) system – please see our [website](#) for guidance or contact Wildlife Licensing.
- Additional guidance is provided in [Using CWM – Applicant Guidance Document](#). This can be downloaded from our website or you can ask Wildlife Licensing to send you a copy.

#### 4. Previous Applications

(a) \* To your knowledge, have there been any previous applications or licence decisions for any species concerning this site?

Yes  No

If 'No' please go to the next section. If 'Yes' to (a), please complete the following.

(b) \* Date of most recent application:

(c) \* Which species was the subject of the previous application?

(d) \* What was the application or licence reference number?

(e) \* What was the outcome of the previous application? (Please select one of the following)

Granted  Not Granted  Advice Only  Deferred  Not Yet Known

(f) To your knowledge, does this application relate to any previously licensed 'mitigation' work for any species on the site being applied for?

Yes  No

If 'Yes' to (f): Please provide application/licence reference numbers, species details and outcome details.

N/A

(g) To your knowledge, is the site being applied for subject to any recent, concurrent, pending or future applications for licences for the same or other European protected species or other protected species?

Yes  No

If 'Yes' to (g): Please provide application/licence reference numbers and/or species information.

## 5. Purpose

### (a) \* Brief Description of Proposal

E.g. Construction of a new road, maintenance of a bridge, construction of five flats with access road and car parking area.

Wates Construction Ltd is in the process of a redevelopment scheme on behalf of the Education Funding Agency at Hampsstead School, Westbere Road, London (Grid Reference TQ243856, see Figure Ca), on an area of 21,118m<sup>2</sup>. The site comprises eight buildings (B1 to B8, presented in Figure Cb). The works will include constructing a new sports hall to and teaching block and the demolition of B5, B6, B7 and B8. The new sports hall will replace B7 and B8, north-east of the site, on land currently occupied by amenity grassland and existing buildings. The new teaching block will be located west of B5 which is currently dominated by hard standing.

### (b) \* Please tell us why you need a licence.

E.g. A day roost will be damaged, a night roost will be destroyed, a maternity roost will be modified and a day roost will be destroyed.

A transitional roost for common pipistrelle bats is located in B5. The building was assessed as having a negligible potential to support a maternity or hibernation roost. The transitional roost will be lost as a result of the building being demolished. Recommended mitigation methods include erecting five Schwegler 1FF bat boxes, two before development commences and three post-construction. A level 2 bat licensed ecologist will be present during the soft demolition of building B5. The works will be carried out between December 2016 and February 2017 to avoid the transitional bat roosting season.

### (c) \* Please confirm the purpose of the application:

- Imperative reasons of overriding public interest including those of a social or economic nature and beneficial consequences of primary importance for the environment under section 53(2)(e)
- Preserving public health or public safety, under section 53(2)(e)
- Preventing the spread of disease, under section 53(2)(f)
- Preventing serious damage to livestock, foodstuffs for livestock, crops, vegetables, fruit, growing timber, fisheries or inland waters, or any other form of property under section 53(2)(g)
- A purpose not specified in Regulation 53(2) that is consistent with Article 16(1)(e) of the Habitats Directive, under section 53(4)

### (d) \* Please confirm the category most appropriate to your proposed work

If other, please provide details here:

N/A

(e) \* Is the proposed work part of a phased or a multi-plot development?

Yes  No

If 'Yes' to (e): You must submit a species specific master plan and Habitat Management and Maintenance Plan with this application, as a separate document. Guidance on what should be included in a master plan can be found at – [http://webarchive.nationalarchives.gov.uk/20140605090108/http://www.naturalengland.org.uk/Images/WML-G11\\_lcm6-9930.pdf](http://webarchive.nationalarchives.gov.uk/20140605090108/http://www.naturalengland.org.uk/Images/WML-G11_lcm6-9930.pdf)

## 6. Site Details

\* Is the address for the site to be licensed different to the applicant's address?

Yes  No

If 'Yes': For the Site / Location to be licensed, please complete all of the following details:

If 'No': Please complete Site / Location Name and OS Grid Reference boxes only.

*(For linear projects, please add the start and end points separately)*

	Site Details
*Site / Location Name:	Hampstead School
House No:	
Address Line 1:	
Address Line 2:	Westbere Road

## 7. Conservation Considerations

(a) \*Will any part of the proposed activity fall in and/or adjacent to a Designated Site?

Yes  No  N/A

If 'Yes' to (a) please complete the table below. If 'No', please go to the next section.

Please indicate whether the activity will fall on and/or adjacent to a designated site:	Designated Site Name:	Type of Designated Site E.g. National Nature Reserve (NNR), Site of Special Scientific Interest (SSSI), Special Protection Area (SPA), Special Area of Conservation (SAC), Ramsar Site, Ancient Monument, Marine Nature Reserve (MNR), Area of Outstanding Natural Beauty (AONB)

On <input type="checkbox"/> Adjacent to <input type="checkbox"/>		

(b) Have you consulted with Natural England for advice on the implications of the application on the designated site?

Yes  No  Not Known

(c) Please give either the outcome of your consultations or the reason why you have not consulted us. Please provide any relevant correspondence and the name of the local Natural England adviser or reserve manager consulted.

N/A

## 8. Authorisation

(a) \* Is the applicant the owner / occupier of the land?

Yes  No  N/A

If 'Yes' to (a) please go to the next section. If 'No' to (a) please answer (b).

(b) Have you received the owner occupier's permission to apply?

Yes  No

Please note that it is your responsibility as the applicant to obtain the owner or occupier's permissions to act under licence on their property.

You may be asked to provide documentation which confirms that you have owner or occupier's permissions and we will contact you if this is necessary.

## 9. Application Details

(a) Please add details for all licensable actions you wish to perform. Please complete one column per species. You may enter more than one Activity and/or Method or Field Technique per species. Please see annex for guidance on bat roost definitions.

* Proposed Date From	December 2016		

(b) \* Have you sent your records to the Local Records Centre?

Yes  No

Please note: You must send survey data and habitat assessment data to your Local Records Centre (LRC). It is a condition of survey licences that records are sent to LRCs annually or to other organisations as specified on a particular survey licence (e.g. People's Trust for Endangered Species).

## 10. Experience

Please note: For guidance in completing this section please refer to the Experience in Bat Mitigation document at [http://webarchive.nationalarchives.gov.uk/20140605090108/http://www.naturalengland.org.uk/images/bat-mitigation-guidance\\_tcm6-10534.pdf](http://webarchive.nationalarchives.gov.uk/20140605090108/http://www.naturalengland.org.uk/images/bat-mitigation-guidance_tcm6-10534.pdf)

(a) \* Has the named ecologist associated with this application held or been named on a bat mitigation licence in the past three years for the same species and in relation to a project of similar scale, methodology and mitigation?

Yes  No

If 'Yes' to (a):

(b) \* Please provide the name of the issuing authority, the licence reference number and date of issue for licences held:

NATURAL ENGLAND (NE) AND LONDON BOROUGH OF ENFIELD

If 'No' to (a) please complete the following section. If 'Yes' to (a) go to the next section.

(c) \* Does the named ecologist currently hold a valid personal survey licence or are they registered to use a minimum of Level 2 Bat class survey licence?

Yes  If 'Yes' complete all of the following.  
No  If 'No' go to (f)

(d) \* What is/are the survey licence reference number(s)?

2015-11256-CLS-CLS

(e) \* Number of years the survey licence(s) have been held

3 years

(f) \* Please give brief details of the named ecologist's current science, education or conservation licence or any other licences issued to the ecologist in the last three years relevant to the species relating to this application:

SNH Bat Roost Licence: 46854

NRW Bat Licence: 61747:OTH:CSAB:2015

(g) \* Please give brief details of the named ecologist's experience on mitigation projects relevant to the species relating to this application, including in what capacity they acted. State the site names and reference numbers of licences and the type of mitigation involved:

Acted as an accredited agent for Joseph Rowntree School in 2011 (EPSM2010-1693 B). Assisted with the soft strip demolition for common pipistrelle bats and bat box installation prior to works.

(h) \* Please provide details of the named ecologist's Qualifications, including any Continual Professional Development (CPD) training relevant to the species relating to this application:

BSc (HONS) ZOOLOGY; MSc CONSERVATION AND BIODIVERSITY  
CPD TRAINING WITH CIEEM AND THE WEST YORKS BAT GROUP HAS INCLUDED MOST RECENTLY BARBASTELLE BATS AND RADIO TRACKING IN NOVEMBER 2015 BY BEDFORDSHIRE BAT GROUP, 'BATS AND MODERN ROOFING MEMBRANES' IN 2015 BY STACEY WARING AND TWO CIEEM SEMINARS IN 2014. 'HABITAT SUITABILITY MODELLING FOR BATS' WHICH FOCUSED ON HABITAT SUITABILITY AT A LANDSCAPE SCALE FOR COMMON AND SOPRANO PIPISTRELLES AND 'BATS, ROADS AND RAILWAYS' WHICH FOCUSED ON MITIGATING IMPACTS OF INDUSTRIAL INFILL AND FUTURE PRACTICES; ADVANCED BAT SURVEY TECHNIQUES WITH DR SOWLER AND DR COMPTON (JULY 2016).

Please note: You will need to provide written references from two people who are familiar with the named ecologist's work. Please attach these references with your application. References provided in support of your licence application should:

- Vouch for the named ecologist's suitability and competence to prepare and deliver mitigation projects;
- State how long referees have known the named ecologist and in what capacity;
- Provide details of the named ecologist's mitigation experience with the relevant species or a related species; and
- Provide details of the referees' own mitigation experience and mitigation licence held (if appropriate) at least one referee must have held a mitigation licence within the last 3 years.

(i) \* Are you providing references?

Yes  No

If 'Yes'  
to (i):

Please provide details of the referees. We may need to contact these referees to verify their statements.

## 11. Consent Status

(a) \* Is any consent required for your proposed project and the subject of this licence application?

- 1. Planning-related consent required (e.g. Planning permission, listed building consent, etc)
- 2. Demolition consent (under Building Act 1984) including prior notice to demolish.
- 3. Other type of consent required (e.g. Minerals consents, Highway Act consents, Secretary of State Decision Letter, Compulsory Purchase Order, Environment Agency Consent, etc.)
- 4. Permitted Development (under Town and Country Planning Act 1990) - no specific consent required
- 5. No consent required (e.g. Public Health and safety issues)

If '3' is selected

(b) \* Please provide details of these consents

N/A

If '5' is selected

(c) \* Please explain why no consent is required

N/A

If '1', '2' or '3' is selected

(d) Have you obtained the necessary consent(s) to allow the proposed activity to be commenced?

Yes  No

- If 'No' to (e), please complete 'Consent Not Obtained'
- If 'Yes' to (e), please complete 'Consent Obtained'

### Consent not obtained

Please explain why you are applying in advance of the granting of consent that would allow the development to commence and what the circumstances are (e.g. Site investigation work which is required to inform the planning consent decision and where, after avoidance measures, the risk of affecting a European Protected Species is high). Please note that your application is unlikely to be processed until this issue has been resolved.

(e) \* Please provide details of the outstanding consents to be obtained and the likely timescales for their determination/issue.

N/A

#### Pre-Submission Screening Service:

We will provide advice on draft applications, prior to consents being in place and prior to a formal licence application being submitted through this chargeable service. We strongly advise customers to use this service rather than trying to pursue a licence under Exceptional Circumstances, particularly where there are concerns about financial implications resulting from delays in obtaining a licence once planning consents are in place. Please see our [website](#) for further advice about this.

Consent obtained

(f) \* Please confirm details of all the consents that have been granted relevant to the proposed activity and this licence application.

If Other, please provide details here:

(g) \* Please provide consent reference number(s)

2015/1672/P

Please submit copies of the consents (or extracts) that are relevant to the proposed activity and this licence application, if applicable.

(h) For all consents that have been granted, have all conditions or Reserved Matters relating to wildlife species and habitat issues (which are intended to be and are capable of being discharged before development begins) been discharged?

Yes  No

*If 'No' to (i), please answer all of the following. If 'Yes', please skip to (j).*

**Please note:** If it is not possible or not intended for the conditions to be discharged before development commences then please complete the questions below.

(i) Please give details of those conditions that are still to be discharged and explain why they have not been discharged.

Condition 9 states that "Prior to first occupation of the development, details of proposals for the enhancement of biodiversity, with particular reference to bats, and a plan showing details of bird and bat box locations and types and indication of species to be accommodated shall be submitted to and approved in writing by the local planning authority. The boxes shall be installed in accordance with the approved plans prior to the occupation of the development and thereafter retained." The condition relates to some of the items relating to the mitigation proposed for this licence. This will be discharged once the bat and bird boxes have been erected.

(j) Is the site subject to any commitment that affects the protected species named in this application?

Yes  No

*For example a Section 106 Agreement (Town and Country Planning act 1990) or other commitments made at a Public Inquiry or in an Environmental Statement.*

N/A

If 'Yes' to (j): Has the commitment been met? Please also explain what has been done.

If 'Yes' to (j): What work is outstanding and when will it be completed?

The works will include constructing a new sports hall and teaching block and the demolition of four buildings (B5, B6, B7 and B8). The new sports hall will replace B7 and B8, north-east of the site, on land currently occupied by amenity grassland and existing buildings. The new teaching block will be located west of B5, which is currently dominated by hard standing.

Landscaping will be finalised post-construction.

(k) Is the site subject to any such commitment that affects other European Protected Species or other protected species? E.g. a Section 106 Agreement (Town and Country Planning Act 1990) or other commitments made at a Public Inquiry or in an Environmental Statement.

Yes  No

If 'Yes' to (k): Has this been met?

### Reasoned Statement & Supporting Documents

A Reasoned Statement and supporting documents may be required in support of this application.

Copies of the latest version of the Reasoned Statement template which sets out when a Reasoned Statement is required and further guidance to help are available on our [website](#).

Please confirm that you have read and understood the Reasoned Statement template and advice note/guidance

Does your application require a Reasoned Statement? Yes  No

If no, please confirm the exception that applies (specify species and scenario e.g. home improvements or small scale housing developments)

The site is publically owned as it is a school and it will remain a school after development. As per the specification in the reasoned statement the following exception applies: "The site includes the redevelopment of an existing building(s), which may include demolition before redevelopment, that will remain in use as a public building."

If your application affects a regionally or nationally important population of bats and a Reasoned Statement is not required, you must consult Natural England for advice before making an application.

Does your application affect a regionally or nationally important population of a European Protected Species? Yes  No

If 'Yes' to question above and you are not required to submit a reasoned statement, please give either the outcome of your consultation (with details of who you consulted) or the reason why you have not consulted us

## 13. Method Statement

A Method Statement must be provided to support this application, along with other supporting documents, which may include some or all of the following:

- Maps
- Figures
- Habitat management and maintenance plans
- Master plan
- Appended survey results
- A work schedule

Please note: The Method Statement should be prepared by a consultant ecologist or another suitably qualified person because compiling the content requires specific species and site-related knowledge.

Further Advice: Copies of the latest versions of templates for all species and further guidance to help you complete them are available on our [website](#).

#### 14. Supplementary Information

*Please provide any additional information you may have to support your application.*

Not applicable

#### 15. Data Protection

The data controller is Natural England, Foss House, Kings Pool, 1-2 Peasholme Green, York, YO1 7PX.

Your information will be stored and processed in accordance with the Data Protection Act 1988. This Act gives you, as an individual, the right to know what data we hold on you, how we use it, with whom we share it and to ensure that it is accurate.

The information will be used by Natural England to undertake licensing functions. To do this we may have to discuss applications, licensing decisions, reports and returns with third parties including the Deer Initiative (for Deer Licences).

Natural England recognises there is significant public interest in wildlife licensing and in those who benefit from receiving a wildlife licence. Therefore, we may make information publicly available. Information released may include, but is not limited to, your name or business name, application and licence details as well as reports and returns.

Natural England, however, realises that some licensed activities can be sensitive and we **will not** release information that could harm people, species or habitats. In some cases, for example, this may mean not releasing the names and addresses of individuals or the location of the licensed activity.

Natural England or its appointed agents may use the name, address and other details on your application forms to contact you in connection with occasional customer research aimed at improving the services that Natural England provides to you.

We will respect your personal privacy, whilst complying with access to information requests to the extent necessary to enable Natural England to comply with its statutory obligations under the Environmental Information Regulations 2004, and the Freedom of Information Act 2000.

If you believe that any of the information we hold concerning you is incorrect or out-of-date, please provide us with the accurate information in writing together with supporting evidence (if appropriate). You should address your correspondence to:

Natural England,  
Sustainable Development,  
First Floor,  
Temple Quay House,

**Important Advice:**

- If your application is made under the Wildlife and Countryside Act 1981 (as amended) or the Conservation of Habitats and Species Regulations 2010 (as amended), any person who in order to obtain a licence knowingly or recklessly makes a statement or representation, or furnishes a document or information which is false in a material particular, shall be guilty of an offence and may be liable to criminal prosecution. Any person found guilty of such an offence is liable, on summary conviction, to imprisonment for a term not exceeding six months or to a fine not exceeding level 5 on the standard scale, or to both. Regarding other wildlife legislation, we will look to provisions in the Fraud Act 2006 (as amended) in respect of applicants making any false representations.
- Natural England or the Secretary of State can modify or revoke at any time any licence that is issued, but this will not be done unless there is good reason for doing so. Any licence that is issued is likely to be revoked immediately if it is discovered that false information has been provided that resulted in the issue of a licence.

## 16. Declaration

### 16a. Convictions

\* Have you or any person listed in the application been convicted of any wildlife-related or animal welfare offence?

Yes  No

If 'Yes':

Please provide details of the convictions: (including dates)

N/A

*The offences we are referring to relate to persons convicted on or after 1 January 2010 of an offence under the Wildlife and Countryside Act 1981, the Conservation (Natural Habitats &c.) Regulations 1994, the Conservation of Habitats and Species Regulations 2010, the Protection of Badgers Act 1992, the Deer Act 1991, the Hunting Act 2004, the Wild Mammals (Protection) Act 1996, the Animal Welfare Act 2006 and the Protection of Animals Act 1911 (all as amended). You do not have to declare a conviction if the person concerned is: (1) a rehabilitated person for the purposes of the Rehabilitation of Offenders Act 1974 and their conviction is treated as spent; or (2) in respect of such an offence, a court has made an order discharging them absolutely.*

**17. Annex - Application Notes**

*Applicant*

The applicant is the person submitting the application (usually the landowner or occupier) who, if the licence was granted, would become the licensee. The applicant may appoint agents to produce the application pack and act on their behalf. A person with specific skills and knowledge of the species concerned, such as a consultant ecologist, must be appointed to assist in the preparation and the delivery of the proposals that ensure the species protection requirements can be met.

*Licensee*

The "Licensee" named on the licence is responsible for ensuring that all activities carried out on site in relation to the licence comply with the terms and conditions of the licence. However, all persons authorised to act under the licence must comply with the licence and its conditions (see Regulation 58(1) of the 2010 Regulations (as amended)). This means that all authorised persons have a responsibility for ensuring that the licence terms and conditions, including any annex special conditions, are understood and complied with. Failure to do so could lead to prosecution.

### *Consultant/Named Ecologist*

The "Named Ecologist" is a professional ecological consultant who has satisfied Natural England that they have the relevant skills, knowledge and experience of the species concerned and is responsible for undertaking and/or overseeing the work undertaken in respect of the licensed species. The 'Named Ecologist' has a responsibility for ensuring that the licence is complied with. They are responsible for advising the licensee on the suitability and competence of any Accredited Agents or Assistants employed on site to undertake the required duties and may include the direct supervision of Assistants where appropriate. More information about the experience required to become a named ecologist can be found at: [http://webarchive.nationalarchives.gov.uk/20140605090108/http://www.naturalengland.org.uk/Images/bat-mitigation-guidance\\_tcm6-10534.pdf](http://webarchive.nationalarchives.gov.uk/20140605090108/http://www.naturalengland.org.uk/Images/bat-mitigation-guidance_tcm6-10534.pdf)

### *Accredited Agent*

An "Accredited Agent" is a suitably trained and experienced person who is able to carry out work under a licence without the personal supervision of the Named Ecologist. Any Accredited Agent must be appointed by the Licensee and be in possession of a letter signed by the Licensee confirming their appointment. Agents shall carry a copy of the said letter when acting under the licence and shall produce it to any police or Natural England officer on request.

### *Assistants*

An "Assistant" is a person assisting a Named Ecologist or Accredited Agent. Assistants are only authorised to act under this licence whilst they are under the direct supervision of either the Named Ecologist or an Accredited Agent.

### *Bat Roost Definitions*

**Day roost:** a place where individual bats, or small groups of males, rest or shelter in the day but are rarely found by night in the summer.

**Night roost:** a place where bats rest or shelter in the night but are rarely found in the day. May be used by a single individual on occasion or it could be used regularly by the whole colony.

**Feeding roost:** a place where individual bats or a few individuals rest or feed during the night but are rarely present by day.

**Transitional / occasional roost:** used by a few individuals or occasionally small groups for generally short periods of time on waking from hibernation or in the period prior to hibernation.

**Swarming site:** where large numbers of males and females gather during late summer to autumn. Appear to be important mating sites.

**Mating sites:** where mating takes place from later summer and can continue through winter.

**Maternity roost:** where female bats give birth and raise their young to independence.

**Hibernation roost:** where bats may be found individually or together during winter. They have a constant cool temperature and high humidity.

**Satellite roost:** an alternative roost found in close proximity to the main nursery colony used by a few individual breeding females to small groups of breeding females throughout the breeding season.

**Other** – if applicable this will be specified in special condition 7.

### ***For the purpose of this licence the following licensed methods are defined as:***

**Destructive search by soft demolition:** the taking apart of a bat structure in a controlled and careful manner by hand, or in some instances with the assistance of hand-held tools and machinery, under direct ecological supervision. Only the Named Ecologist, Accredited Agent or a directly supervised Assistant may take any bats found.

**Mechanical demolition:** destruction of a structure that previously supported a bat roost using mechanical means after the structure has been declared free of bats by the Named Ecologist or Accredited Agent. Mechanical demolition usually is preceded by a soft demolition exercise or completion of an exclusion process.
