2016/5870/T	I Grey	24 North Villas	27/10/2016 09:41:33	COMMNT	I live directly behind 23 South Villas and, while the tree does need to be reduced in height, I would be sorry to lose the privacy afforded by the tree's screening between the two houses - without the tree it will be possible to look directly into one another's windows. If the tree is removed, will any other tree be planted in its place?
