I object to the application (please state reasons below)

Your comments

This proposal together with the development in progress on railway land next to the Horden Overground station will have a big impact on the resources of the area well beyond the impact of the buildings themselves.

Presumably no consideration has been given to the impact on medical resources, schooling & such like. Also the likely impact of extra pedestrians at peak times will exceed the capacity of the narrow pavements to contain them.

I think the scale of the development is beyond the resources of the locality.

Please continue on extra sheets if you wish
