Subject: My Objections to Application 2015/6455/P

I own flat 3 22 Lymi Gton road. My flat has a balcony leafing off the sitting room. Both areas the balcony and sitting room will be completely overlooked and the light taken away by these proposed flats. The height of them is the biggest issue for me. It will utterly ruin my home and I am devastated by this proposal.

It will also effect the play ground area my children use which will also lose its light, just along from my flat.

In addition I am very concerned about the impact on the local amenities and schools, gp practices etc. West Hampstead is already an over populated area with very limited parking I wholly object to these proposals Sarah Herman
