

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2015/7300/L	Richard Barrie	London House 1 High Street Haddenham Bucks. HP17 8ES	30/10/2016 15:54:28	OBJ	<p>Once again I object to this plan as it in no way addresses the noise disruption to AIR Studios while the excavation work is carried out.</p> <p>I am an employee of AIR Studios and this application would put my livelihood at risk as well as that of my co-workers and the many musicians who depend on AIR Studios.</p> <p>As has been endlessly pointed out in objections to previous applications for this address the noise of any excavation can be clearly hear in the recording areas of AIR Studios and would make recording impossible.</p> <p>I trust that all objections that have been made to previous applications will be carried over to this one.</p> <p>It is a nonsense that a householder can repeatedly re-submit plans to negate previous objections.</p> <p>I would have thought that Camden Planning Department would have had an obligation to let previous objectors know that a new application has been submitted, but this has not been the case.</p> <p>I only became aware of the new application after spotting a yellow planning notice attached to a lamp post.</p>
