2016/5372/P	C Gregory	35 Fortress Road	29/10/2016 13:49:58	OBJ	<p>The development dwarfs all of the surrounding buildings and is completely out of character within the street scene.</p> <p>The loss of light to the surrounding properties will be significant, with the developers report saying that some loss of light will be outside of permitted levels. Either the levels are to be enforced or they are of little value.</p> <p>The development will significantly overlook Linton House with windows looking directly across one another offering no privacy.</p> <p>The view currently enjoyed by properties climbing up fortress road to the South West will be destroyed.</p> <p>The lack of affordable housing is shocking.</p> <p>Finally, all of the recent developments in the area have flagrantly operated outside of their permitted audible construction times causing significant disturbance to the local residents and no doubt this would occur again as their seems to be no enforcement action taken.</p>
