

- B. Revision Note:**
- 1. Proposed rooflights reduced in height.
 - 2. Proposed window now removed.
- C. Revision Note:**
- 1. Existing dormer windows to be retained.
 - 2. Mansafe restraint system added.
 - 3. Rooflights repositioned to work with reconfigured layout below.

- Demolition Key:**
- Existing structure / ground
 - Proposed removal of existing structure (in section)
 - Proposed removal of existing structure/finishes (in elevation)
 - Proposed removal of existing structure (in section)
 - Hatch denotes removal of existing concrete slab.
 - Hatch denotes proposed removal of existing structure (in elevation)

- Proposed finishes legend**
- Proposed straight-tank hardwood floor finish on specified floor build-up.
 - Proposed tiled floor finish on specified floor build-up.
 - Portland stone.
 - Timber decking.
 - Natural stone floor tiles.
 - Proposed slate roof finish on existing and new roof structure.

- General Notes:**
1. Refer to the Door and Window Schedules for a detailed summary of each door and window.
 2. All existing floor finishes and existing ply to be carefully removed.
 3. Existing floorboards to be carefully removed and reused where possible.
- New building floorboards to be installed:**
1. New furniture/joints are to be installed to the top of the existing joists in order to level see Structural Engineer's Information, Low profile LPH throughout.
 2. New drainage and concrete slab to be laid at basement level.
 3. Existing slate roof finish to be carefully removed and stored, and new roof felt installed. Existing slates to be placed over slates to match existing to replace any damaged slates. Layover to full portion of the roof, existing entrance canopy and dormer windows to be removed and replaced on a like-for-like basis.
 4. Joists are to be inspected and strengthened where required to support increased loads, to Structural Engineer's details.
 5. Existing internal walls are to be skimmed and prepared to take new wall finishes as required. All defective existing plaster to be removed and replaced.
 6. All existing panelling, mouldings and cornices to have existing paint finish removed for new paint decoration.
 7. Existing structural timber beams to be exposed and treated with wood preservative. Ends to be wrapped in DPC and rotten timber to be replaced.

- Proposed legend notes**
- | | |
|--------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
