2016/4899/P	Shaun Brick	15 platts lane hampstead NW3 7NP NW3 7NP	03/11/2016 12:38:42	SUPPRT	We are owners of the property directly opposite the proposed works and would like to voice support for the proposal. The proposed basement is not excessive in size, and would be largely hidden from views within the conservation area. The elements of the proposal which are visible from the public domain are entirely in keeping with the character of the area and will not unbalance the appearance of the property. The proposals appear to be well thought through and it is comforting that the a Construction Management Plan has been submitted and signals the applicant's intentions to carry out the works with the least disturbance possible for neighbouring residents.
