2016/5571/P	Mrs E Arscott	11 Beaconsfield 64 Red Lion Street	04/11/2016 09:53:30	OBJ	As a resident opposite this building, I feel it would not be in our interests to allow the planned alterations to go ahead to make it taller or to add terraces to other floors, Red Lion street is not that wide these works would further impact on our privacy the building is big enough.
2016/5571/P	Anthony Jennings for Bloomsbury CAAC	Flat Z 12-18 Bloomsbury Street WC1B 3QA	05/11/2016 20:36:49	COMMNT	We have discussed this application with the architect. We are concerned about the impact of the rear elevation on Three Cups Yard and emphasised the need for the floors to be stepped back. We are primarily concerned with the street elevation and the proposed front entrance treatment is better but should be even better integrated with the windows above, and the blank windows should be opened or coloured and the whole as close to the corner of Red Lion Street as possible.

2016/5571/P	CP Marques	Flat 6 22 Red Lion Street	03/11/2016 19:42:01	OBJ	<p>I am writing as the owner of Flat 6 at 22 Red Lion Street the neighbouring building to the north of 20 Red Lion Street. My flat is at first floor level and is on the dividing wall with 20 Red Lion Street, I have windows at front and rear.</p> <p>The proposed ground floor plan is missing from the Proposed Drawings Binder. Please can this be up-loaded.</p> <p>I am concerned about the proposed extension and terrace to the rear at first floor level. The terrace will be very close to my bedroom windows, be visible and a noise nuisance. I will be overlooked at close range. This terrace is not adequately illustrated on the Section or Elevation drawings, its impact on my flat is not being fully revealed. I object to the proposed extension and first floor rear terrace and wish to see it removed from the scheme.</p> <p>I am also concerned at the amount of terracing on the higher levels and the noise nuisance and overlooking that will bring, noise from plant and machinery, reduction in sunlight and daylight.</p>
