**Subject:** Independent Daylight Sunlight Study Required for 156 West End Lane

To the officers at Camden Planning

The Anstey Horne independent review of Daylight and Sunlight figures is based on assumptions about lighting data provided by the developer. No technical data or modelling information has been provided by the developer in the year since the original application. This is a cause for great concern and results in no one being able to determine the true impact of the proposal.

I request your assistance in ensuring that Camden Council commission a fully independent Daylight and Sunlight study, complete with comprehensive Sunrise to Sunset 3D overshadowing modelling for the proposals submitted, such that it is possible to establish the true impact on neighbouring properties, public amenities and the Designated Open Space in Crown Close.

I also request that you help ensure no official public consultation on Application 2015/6455/P commences until such time as this fully independent Daylight and Sunlight study is made available.

Best wishes  
Marie Lynam, 13 Davina House, 59a Fordwych Road, London NW2 3TW
