Planning application number..... 2015/6455/P

Planning application address..... 156 West End Lane, London NW6 1SD

~~I support the application (please state reasons below)~~
I object to the application (please state reasons below)

Your comments

1. For the size of plot, the proposal includes far too many homes
2. Local infrastructure including schools and medical centres are over-subscribed already, this number of new residents will add to the problem
3. The proposed blocks are too high and will dominate adjacent properties. No new block should be higher than the local streets.
4. The height of the blocks is not in accordance with the Council's own Conservation Area
5. The style of the architecture is totally incompatible with the adjacent Conservation Area.
6. The provision for car parking for the residents and their visitors is totally inadequate and will result in the whole locality being swamped with additional vehicles during evenings and weekends.
7. The development opens adjacent properties in Lyminster Rd to intruders through the back garden and the risk of burglary
