2016/5181/P	Clare Dawkins	Flat 11	10/11/2016 20:52:41	OBJ	As a resident of 7 Spring Place I am extremely concerned about the height of this proposed development. Whilst I appreciate that the site needs to be redeveloped, I can see no reason why this requires an additional four storeys which will have a sharply detrimental effect on the quality of life of those who live in neighbouring buildings. The proposed building will block off a large amount of natural light to the residents of 7 Spring Place and this will likely be further exacerbated by the harshness of the proposed building materials.
