

Replacement of existing open trellis on top of boundary wall with open boarded horizontal timber boards with natural finish to same height.

Existing curved bricked archway to be retained. Existing timber framed glazed door and side panels to be removed. New solid timber door and solid panels to be inserted into new brickwork wall. New wall to be rendered and painted to match the existing external lightwell walls.

Existing concrete slab to be removed and new slab inserted at level to allow sufficient head height for room to be utilized as a utility room

Existing non historic walls to be demolished in green dashed line

Reinstatement of former stairs in same location

Existing non historic walls to be demolished in green dashed line

Existing modern floor finish and screed to be removed and replaced with wide oak boards with new underfloor heating throughout the lower ground floor

Existing window relocated in approximate location of former window

LIVING ROOM
Existing window to be removed and inserted to end elevation. Existing brickwork below window to be removed to allow for internal opening. Removed brickwork to be re-used on ground floor.
