2016/5156/P	Filipe Freitas	17 New College Court	14/11/2016 10:28:31	OBJ	<p>I am writing to object to these planned works as they negatively impact our lives significantly. We are three people who have just moved in to this location and by the time we were notified about these change of use plans, the decision had already been made, before the consultation period ended I might add which is extremely unfair. From the sounds of it, construction has already begun and the noise is unbearable, waking everybody up early most days and as we predominantly work from home (and late hours outside of that) it is an unwelcome distraction throughout the rest of the day. My partner has a medical condition, suffering from migraines and these noises trigger headaches and greatly affect her well being. I have searched through the available documents online and found no specific dates for these works, I would like to know how long it will take, as if it's for very much longer greater action on our part would have to be taken. Please take these thoughts into consideration before proceeding.</p> <p>Best, FF</p>
