2016/5463/P	Mr Marc-Antoine Di Guisto	Flat 2 179 Gloucester Avenue NW18LA London UK	11/11/2016 09:58:57	OBJ	<p>I have concerns that the new structure will reduce to feeling of safety in my property as the structure being built to replace the glass conservatory will make access to my kitchen window easier from the outside.</p> <p>The windows are original to the building and consist of large glass panes which do not offer much security from intruders.</p> <p>The new structure would provide a secure platform for an intruder to walk up to the window with ease whereas the previous glass structure would have made it too precarious.</p>
