The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans 1604_00_200_P01; 1604_90_200_P01; 1604_90_001_P01; 1604_90_002_P01; Design and Access Statement

Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission.

The proposed single storey rear extension at ground floor level would project approximately 3.1m to the rear of the dwelling house. Given the depth of the extension it is viewed that a reasonable proportion of useable private amenity space is able to be maintained to the rear of the existing dwelling house.

The size, design and materials of this extension are considered to be acceptable when taking into account the existing nature of the rear terrace. Given this, the proposal will not adversely impact on the appearance of the host building or the conservation area and would be subordinate to the host building.

It is viewed that the size, location and height of the extension will not adversely harm the amenity of the adjoining conservation or the amenity of residential occupiers in terms of loss of daylight, sunlight, outlook or privacy.

The proposal is considered to preserve the character and appearance of the conservation area. Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

No objections or comments have been raised in relation to the works. The application site's planning history and relevant decisions were taken into account when coming to this decision.

The proposed development is in general accordance with Policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and Policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with Policies 7.4, 7.6 and 7.8 of the London Plan 2016; and the provisions

of paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework 2012.
