Importance: High

Dear Tessa

Further to my previous email chasing an update on the planning applications at 67-74, please see below; yet another transgression of the s.106 agreement.

Please could you add this to the list of objections (it applies to both applications) and update us on where we are with this process.

Thanks  
Calum

Hi I live at the ziggurat 60-66 saffron hill 'Callprint' at 67-74 are using the lightwell to weld in after 6 pm This is a contravention of the agreement we have with them .  
I asked them to stop but they said they wouldn't .  
Please can you look at the movie of it & do something to stop their inconsiderate behaviour to their neighbours Regards Lindsay Alker
