2016/5492/P	Michael Sarch	17Acol Road London NW63AD	21/11/2016 13:31:06	COMMEMP ER	<p>I wish to object to this application as an adjoining owner on the grounds that it proposes excessive development and will adversely affect the adjoins properties.</p> <p>The depth of excavation will alter the water table and thus be prejudicial to nearby properties it is a gross overdevelopment of a small site and should not be permitted.</p> <p>It will most particularly cause light and overlooking problems to the adjoining properties.</p> <p>In an area where the clay soil can lead to settlement it is unwise to build the basement.</p> <p>The effect it will have on mature trees in a conservation area should be considered.</p> <p>I understand that many local owners also oppose this application.</p> <p>Please encourage the applicants to reconsider a less harmful refurbishment of this small mews house more inkeeping with its current character.</p>
