Your comments on the planning application

I am against the implementation of the project because:

1. It will create a lot of more persons already living in the area, which has several large developments and will result in a total overcrowding of the area around West Hampstead Tube Station.
2. This will adversely affect an already over-crowded area and will result in sever congestion at the West Hampstead Tube and Surface rail stations.
3. There does no at appear to be parking facilities at the development, and this will result in the already congested roads around West End Lane to be jammed with more

parked cars, and will create problems for residents parking that is already severely overcrowded. Furthermore it will adversely affect the road traffic, both cars and bikes, which is already a severe problem, particularly during the mornings and afternoons, rush hour periods.

4. The height of the proposed building - up to seven stories - will adversely affect the light and privacy of neighbouring residential properties.
