Dear Evelyn Jones,

I saw a notice at the Shorts Garden's entrance to Neal's Yard regarding application 2016/6181/P and tried to find it on your website to comment but it says it cannot be found.

The previous application for this premise at 16 Neal's Yard 2016/5869/P has been withdrawn and now it is impossible to see the plans for the new application.

I therefor offer my comments to you in an email.

The previous plans seems reasonable as they mostly extended the entrance to the shop. If this is staying the same I do not have any problems but my worry is that new plans will open the frontage further and thereby cause noise nuisance to the residential premises surrounding it.

Over the past years many frontages have been opened in Neal's Yard. No 3, 2B, 1, 6, 8-10 and 12 have all been opened up. This has been causing accumulative impact and in the summer months the noise coming up from this small yard is often unbearable. There are therapy and educational premises on the first and second floors which are affected and I am a resident and it definitely affects me.

I would object to further opening of the shop front of 16 Neal's Yard beyond the entrance door.

Yours sincerely,

Anja Saunders
