Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.  E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.  T1 - Yew x 1 - lift to 1.5m above ground level and reduce spread and height by around 1m Reasons: outgrowing a restricted location and neighbour complaints T2 - Evergreen oak x 1 - lift to clear roof by 2-2.5m  Reasons: to protect the building from damage T3 - Yew x 1 - coppice to 600mm above ground level Reasons: to protect the building from damage and improve growth of T2 T4 - Evergreen oak x 1 - lift to 1.5m above ground level  |   |  |  |  |   |  |
| 7. Identification Of Tree(s) And Description Of Works  Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).  Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.  E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.
