

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2016/5886/T	Ingrid and Caradoc King	11& 12A West Hill Court Millfield Lane London N6 6JJ	22/11/2016 21:27:05	COMMNT	Notification was misleading in that it only outlined two trees and did not give their whereabouts. As a resident of West Hill Court I would like more information on the reasons for cutting these trees down and their exact location.
2016/5886/T	John Andrews	30 West Hill Court	22/11/2016 18:05:43	COMMNT	<p>I would like to ask that more time be given for consultation and that letters be sent if they have not already to every single resident of West Hill Court which comprises 38 flats. All of the residents use and enjoy the Estate and many are dismayed at the continual removal of trees and failure to replace them with new ones. Furthermore, you fail to mention in your Notification Letter summary that the Application is indeed to fell four trees, the Hawthorn and Elder mentioned above and two Horse Chesnuts.</p> <p>Since 2010 the Board at West Hill Court has sanctioned the felling of six trees (two Poplar, two Sycamore, a Maple and a Horse Chesnut) and they also wished to fell a Beech which some of the residents managed to protect with a TPO. To my knowledge the felled trees have not been replaced with new trees and this concerns me as we are meant to be in a Tree Conservation Area.</p> <p>Lastly, in the document above there is no reason given for the request to fell the four trees under threat other than a reference to an Aborreal Survey. It is not clear if this is the one in your Appendix dated 11/11/15.</p> <p>Given the confusion around this Notification I would request that a decision is delayed and that more time be given and more residents consulted (if they have not been so already) so that ALL of the residents of West Hill Court are given sufficient time, notice and that they are also provided with all of the reasons for the proposed felling.</p> <p>Many thanks</p> <p>John Andrews West Hill Court</p>
