

**Emergency Lighting Replacement**  
**Akbar House, 4 Guildford Place, Camden, London WC1N 1EA**

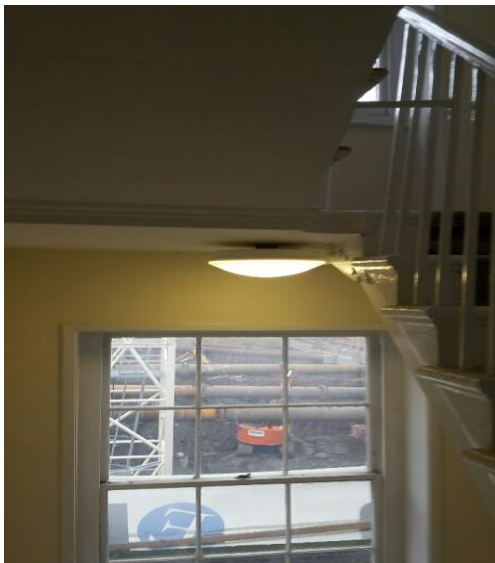

**Date Listed:** 2 August 1973

**English Heritage Building ID:** 477915

**Grade:** II

**Internal Escape Lighting**

There are several standard light fittings installed in the rear escape route as shown in the photos below, these offer no illumination in the event of an emergency or power cut. These will be replaced by Kosnic LED DD Emergency Lights operated by a PIR, as per attached data sheets

**External Escape Lighting**

There are two existing light fittings mounted to the wall outside which is intended to illuminate the lower level exits/bin storage area. Both Light fittings are defective; these will be replaced with similar emergency units and be operated by a PIR.
