The documents submitted indicate that the developer is intending to carry out piling works within exclusion zones of Thames Water assets. The developer is required to contact the Thames Water Developer Services department and state that they have been referred to the Customer Led team by the Development Planning team to discuss the requirements for an asset protection impact study (email at developer.services@thameswater.co.uk/, FAO Customer Led). Their case will be logged and a representative from the Customer Led team will be in contact with them.

More details on the asset protection impact study process can be found in the guidance document "Working Near Our Assets" (available online at <http://www.thameswater.co.uk/developers/18785.htm>).

Please bear in mind that Thames Water will hold the developer and any relevant contractor/sub-contractor liable for any losses incurred or damage caused to Thames Water assets arising from construction works or subsequent use of the facility.
