Dear Charlotte,

Many thanks for your email.

I have checked, and when we reviewed the scheme on 2 November the revised drawing had not been made available: I see it is dated 17 November.

Given the revision, I am happy to withdraw our objection.

Can I ask you if you could add an informative to any consent to draw attention to the importance of not adding new work above the parapet line further forward of the present proposals? I think it would help ensure that no-one is unsure about the importance of the long views of the unspoilt roofline/front parapet.

Many thanks for all your work on this application.

Best wishes,

Richard
