Reasons for Refusal

- 1 The proposals would be likely to generate additional car journeys and hence increase demand for onstreet parking, to the detriment of residential amenity and of traffic flow and highway safety conditions, especially in Lymington Road. They would thus be contrary to policies RE*, EN1, TR2, TR3, TR12 on traffic restraint and parking control, as contained within the London Borough of Camden Unitary Development Plan 2000.
- 2 The proposed buildings, in terms of their scale, bulk, footprint and location, involve overdevelopment on a site designated as Private Open Space, to the detriment of the local area's amenity and character. They would thus be contrary to policies EN68, EN71 on open space protection, as contained within the London Borough of Camden Unitary Development Plan 2000.
