2016/5232/P	Corinne and Bruno Cervi	46 Fairfax Road NW6 4HA NW6 4HA	17/11/2016 23:27:46 APP		We wish to support the objections to the proposed extension to 42 Fairfax Road. The proposed extension of 3.9 metres is excessive, even more so in relation to No 44, from which the existing building at No 42 already protrudes by about 1 metre. We are concerned that granting this permission will set a precedent and consolidate a dangerous trend which is already changing completely the neighbourhood we bought into: from a pleasant green environment, albeit small, hosting a variety of wildlife to an ever extending mass of buildings. This, besides making the surrounding less pleasant, also compromises the rain water drainage, the consequences of which we may already be experiencing, being the lowest house of the terrace.
