Importance: High

I wish to object to this proposed extension.

I have also noticed that the EXISTING site plan [P1603F0001P1](#) incorrectly shows No 20 England's Lane at the rear of No 5 Elizabeth Mews instead of No 3.

Elizabeth Mews 's numbering run sequentially anticlockwise [1,2,3....] This is a major error [which is repeated in other attached documents] introducing an element of confusion in an otherwise already controversial planning application highlighting the level of unbridled greed for space by the commercial front properties in England's Lane and their historic disregard [air conditioning et al !] for the rear residential Mews properties whose amenities will be severely diminished if this application is granted.
