RE: 39 Great James Street Planning Application

Dear Mr. Whittingham,

Further to our recent correspondence, please find enclosed our revised drawings and documents for application 2016/5824/NEW & 2016/6155/NEW.

As agreed in our conversation on Friday 25th November, the demolition of the backfill area to the rear of the site has been omitted from the proposals. All relevant drawings and documents have been updated to reflect this. These revisions are noted on the enclosed issue sheets.

We very much hope that this enables the application to be validated so that the statutory period for determination (3 months) can commence.

I'd expect that we will be contacted in a few weeks with regard to arranging a suitable date for a site visit. I'd recommend that all builders materials are removed from site if only to ensure that visitors can access all parts of the rooms (the ground floor front room is a bit cluttered). I'll be in touch with you when Camden contact us for that.

Yours sincerely,

Anna Carton
