2016/6238/P	Michele Freedman	100 Parliament Hill Mansions Lissenden Gardens London NW5 1NB NW5 1NB	04/12/2016 11:05:51	OBJ	I object to this application. Presently, the house fits well in an estate of red brick victorian mansion blocks. If permission was granted to build another storey, it would have a detrimental impact on the estate as it would dominate on an estate with 100's of people living in flats. I don't think it would be just for one individual to change the nature of an estate enjoyed by many others. We live opposite the building and it would impact our view, cut out light and could effect the value of our property. When JJ first built the house, he understood that his house would be no taller than the existing building there.
2016/6238/P	Liz Allen	86 Parliament Hill Mansions Lissenden Gardens NW5 1NB	02/12/2016 10:38:22	INT	The proposed changes don't accord with the architecture and design of the mansion blocks in Lissenden Gardens. I doubt they would have been passed when the original gardener's cottage was replaced with the current house. The mansions blocks were designed to provide openness and light, but with this development the outlook for residents opposite the house in Clevedon Mansions will be crowded and oppressive; blocking light and cutting down on privacy. These same residents will bear the brunt of being adjacent to new build in Parliament Hill School. The two developments between them will completely change the character and outlook of their homes. The existing house is a smart compromise between the old and the new. It is barely ten years old. It should stay that way.
2016/6238/P	Julie Wemyss	23a Clevedon Mansions	02/12/2016 09:41:45	SUPPEMPE R	I support this application.
2016/6238/P	Peter Sand	35 Clevedon Mansions Lissenden Gardens NW5 1QP NW5 1QP	03/12/2016 21:50:38	OBJEMAIL	My flat in 32 - 41 Clevedon Mansions is close to The House. The proposed increase in the height of the roof of the building will result in a loss of light reaching the flats in Clevedon. Mansions. The proposed increase to the expanse of wall facing the flats will detract from their amenity. The plan to increase the size of a modern building in what is a set of historic Victorian buildings is an inappropriate development.
