2016/6270/P	Jeremy	8 Iverson Road	04/12/2016 13:30:01	OBJLETTE R	Dear Sir/Madam, As a close neighbour, I object to this planning application. In an already very crowded community which suffers from the fallout of litter and noise from Kilburn High rd, an extension of this nature is only going to add to our overcrowding, parking problems and refuse issues as well as blocking the light to the residents of Spring Court on Iverson road. With an extension already planned for 332 Kilburn High Road, surely that's cramming enough people on top of each other?!
2016/6270/P	Agnes	iverson road	03/12/2016 11:06:00	OBJ	This proposal does not mention planning permission 2015/3445/P which is for the same site nor the fact that the shop at 338 Kilburn High road has been developed without planning permission (change of frontage and decking installed). Additionally drawing PL08 is grossly misleading as the building opposite the development site on Kliburn high road is 375 Kilburn High Road and not 377 Kilburn High Road as shown in the drawing. 375 Kilburn High road is lower in height than the development site and not a 6 six storey building as illustrated. Plans for planning permission 2015/3445/P were amended to a roof mansard extension after numerous objections from local residents. Objections that were made to application 2015/3445/P need to be taken into account for this application.
