NOTES

SGN-350: Metal plate fascia serving as background for SGN-351 and SGN-361; To take PTS-112; Contractor to suggest cost alternative TBC with Architect.

SGN-351: Brass flat lettering on SGN-350 fascia. Contractor to suggest cost alternative TBC with Architect.

SGN-361: Brass back-lit 3D lettering SGN-350 fascia. Contractor to suggest cost alternative TBC with Architect.

ALT-401: Repair and renovate existing steel frame storefront glazing, except the doors which are to be taken down and stored securely to be passed onto the client; Strip off paint and prep to take PTS-113; All existing glazing to be retained.

EWS-115: Round perforated metal transparent façade screen to cover existing steel transoms; R12 T20, R15 T21 or R16 T20 in mild steel, post-galvanised for outdoor installation, to take PTS-112; No visible fasteners or weld seams.

DRG-201: Manually operated hinged external glazed frameless door; To be surrounded by a brass sleeve profile to highlight their presence within the shop front. To be adapted with a brass handle as shown on drawings.

ALT-903: Maintenance works to existing ventilation system throughout; Allow for replacing grille on the Leather Lane façade.

LVR-901: Mask for existing external air conditioning unit:
 -mild steel metal frame to support the perforated metal mask of min 60% open area, mounted around the existing air conditioning unit.
 -solid metal sleeve to segregate air outlet in order to separate air intake and outlet;
 -No visible fasteners or weld seams
 -R10 T12 (62.99% open area) in mild steel, post galvanized for outdoor use and to take PTS-112 paint finish.
 -Allow for spray painting the air conditioning in grey before mounting the mask.

CLG-551
 Suspended ceiling realized out of 'off the shelf' timber round baguettes secured with adhesive on standard perspex sheets
