Dear Mathias

I live at the above address opposite the Vila Ronel restaurant and I would like to object to the following:

Decking- they have breached their restrictions of its use after 6pm. Customers have continued to make a lot of noise on the decking on many occasions. It is 1.30am now and the customers leaving the restaurant have woken all the street up again! Decking should be removed and restaurant closed after 8pm latest.

Signage- The Leon lights on a residential street should not be allowed, very obtrusive.

Parking- parking has become a big issue with the huge cars owned by the owner and his customers and the limited parking on this very busy street off the high road. We also have the Iceland lorries coming down this tiny street, complete madness!!

Also I can't understand why they have a license to sell alcohol on this very small residential street.

You will also see on your records how many times we called the noise team but all I get is keep calling and nothing gets done!

I hope you can help.

Regards Dal
