FW: Comments on 2016/6356/P have been received by the council.

As a leaseholder at Derby Lodge, I am concerned that this huge office building will be out of keeping with the residential nature of our listed buildings, overlook and block light to neighbours who back onto the courtyard, and cause great upheaval during the proposed building works. If it were built then the disturbance of an office building in an already densely populated area, with more traffic, parking issues, lights from offices late into the night, people smoking outside will be detrimental to the block. It seems out of scale with my block and those in our neighbourhood.
