

The Glenloch Sub Area

“The site lies in Conservation Sub Area 4: Glenloch (incorporating Glenloch, Glenmore, Glenilla and Howitt Roads).

This is a distinct area of Edwardian terraced housing developed by the Glenloch Insurance Company close to Belsize Park Underground Station and Haverstock Hill. There is a clear change in character on entering this area from both Belsize Avenue and Belsize Park Gardens from the larger, grander, villa development to more modest family housing of a much smaller scale and tighter grain. These streets fall at a constant gradient to Glenilla Road which is flat”

2 Context

Glenilla Road

Glenilla Road is less consistent in character than the other streets in the Glenloch Area. It has a variety of buildings of different ages, materials, styles and heights particularly along its southern side. This characterful streetscape juxtaposes large and small, tall and low buildings with flat and pitched roofs, in a mixture of architectural styles, materials and typologies all of which have residential use except for the existing derelict Church Hall.
