It has no architectural merit with a bland elevation facing No 63.• The flat roof should be green/sedum roof• There is no 45 degree angle study to show if there will be any impact on the rights of light for the property at no 63.• There are no dimensions on the drawings so any constructed building would be open to interpretation rather than a strict control benchmarked by dimensions. Dimensions should be shown for heights, length and width.• It appears to be much higher than the rear extension at No 61A• No Design & Access Statement nor photos have been provided. <p>BRA object to this application being recommended for approval and ask that it is refused.</p>
