2016/6238/P	Jerry Whittaker	Flat 45a Lissenden Gardens Lissenden Mansions nw5 1pr nw5 1pr	06/12/2016 13:19:48	OBJ	I object to this application as tenant for 57 years on this estate which I understand has been Listed as Buildings of interest, I think that the excessive expansion of the house which was originally granted permission subject to certain height restrictions will adversely change the appearance of this Victoria estate. It will spoil hundreds of people's views towards the heath. We live in a very high density estate and it seems unfair that so many long term residents like myself that have enjoyed an entire life here will have our heath views and the well know historic estate changed forever.
2016/6238/P	Mark Lamb	25 Croftdown Road NW5 1EL NW5 1EL	05/12/2016 14:35:57	COMMNT	I would support this Application strongly. This looks to be a modest, sympathetic and sensible addition to a well regarded piece of local architecture that has helped to lighten the monotony of the surrounding Victorian mansion blocks. The council should support this extension to the family living space.
2016/6238/P	STEPHEN COTTLE	38 Glenhurst Avenue NW5 1PS NW5 1PS	05/12/2016 23:31:21	COMMNT	The potentially relevant policies appear to be concerning daylight and sunlight and overlooking. In both cases the proposal appears to be compliant, so I support the application. The building is a plus to the area because it is innovative & good design. I understand that windows face north and south only so that the proposal can be granted permission since there would be no overlooking of the flats as the side walls are solid – to protect the amenity for all concerned.
2016/6238/P	Karen	33 clevedon mansion	05/12/2016 22:46:18	SUPPRT	I support this application, as stated by the family it will have a great impact on their home life, and feel that it does not cause any restrictions to other property surrounding it.
