I had not body who can send this email for me until today.

To cut down the trees for the benefit of the resident of landgardens would detroit all privacy of the residences of 21 lindfield gardens. All that is been consider is the benefit for landgardens, lindfield gardens is being ignored completely when they are in the garden, the trees act as a shied the privacy.

I think is most unfair to ignore the wish of residences 21 lindfield gardens, surely ones can think of compromise. For both properties.
