Informatives:

- 1 Reasons for granting permission:

The proposed aluminium framed doors and replacement windows are sympathetic to the main property and are considered appropriate at this location at ground floor and in the rear elevation.

There are no concerns regarding amenity impact as the doors face garden space and replace existing windows therefore there would be no increase in overlooking beyond the existing situation.

No objections were received in relation to this proposal. The site history and appeals have been taken into account in making this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

The proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.
