Drawing 043-E3-01-01

Issue date Sept 2016

FOR TENDER

Scale 1:10@ A1

GENERAL NOTES

To be read in conjunction with prelims and specialist stonemason details

Final scope of work to be agreed with CA prior to commencement.

CLEANING

External cleaning to be completed prior to commencement of stonework repairs, following approved external cleaning trials with DOFF steam as per spec A12r/460 in consultation with CA.

REPOINTING GENERALLY

Allow for ashlar repointing to open joints only (approximately 50% of total surface area) as per specification Z21r/490. All hairline fissures to ashlar and retained rendered surfaces to be filled where possible, in consultation with CA.

KEY

 **Replace Stonework**
Carefully replace stonework as per specification F21r and approved sample.

 **Mortar Repair**
Repair with lime mortar as per specification F21r/750 and approved sample.

 **Stone Indent Repair**
Indented repair as per specification F21r/710 and approved sample.

C **Replace Cramp**
Careful removal of existing cramp and cramp replacement as per specification F21r/610. Allow for stone replacement, indent repair or mortar repair as scheduled.

CA **Cramp Assumed**
Evidence suggests corrosion of embedded cramp within face stonework. Area to be investigated by specialist stonemason. Allow for careful removal of cramp and cramp replacement as per specification F21r/610, and stone replacement, indent repair or mortar repair as scheduled.

 **For Structural Investigation**
Signs of movement or structural concern at time of survey to be investigated by Structural Engineer

 **Shelter coat**
As per specification F21/860
