

Details Page for Planning Application - 2016/6350/P

Site Address Flat C 13 Healey Street London NW1 8SR

Application Progress Summary

- **Application Registered**08-12-2016
- **Comments Until**07-12-2016

I am writing to comment on, and object to, the above application.

Firstly: Why is it so difficult to comment/object through the website? There should be a very clear link to enable emailing of objections.

Secondly, the recent rejection of an application for a similar mansard roof extension on the East side of Healey Street, is a decision with which I agree. On the West side, there are two approved mansard roofs, but the East side has none and hopefully remains so. It would make sense to declare the street a conservation area.

Thirdly, the rear of the property is very close to the rear of properties in Grafton Crescent and an extension will result in overlooking and loss of light.

Fourthly, this is an application by a top floor flat; creation of a new room on the roof will have serious effects on other tenants/leaseholders in the building.

Please acknowledge receipt of this email. Also, if you look at the application on line, comments will be accepted up to one day prior to the date of application!

Thank you

Brian Lake
