3. Description of Proposed Works

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s):

Boiler no.4 within the existing North East boiler room in the British Museum Great Portland Street site is to be replaced with a new boiler of the same design and output. The new boiler will be provided with a new 650mm diameter stainless steel flue pipe which will run externally up the façade of the internal courtyard. This new boiler flue will follow the same external route, and be close to 2no. stainless steel 500mm diameter stand-by generator flues which were installed some years ago.

The change to the external elevation will result in three vertical flues being visible whereas two flues have been visible to date.
