E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place. Rear Garden: Mature Apple: Reduce crown back to previous reduction points whilst preserving a suitable amount of furnishing growth to ensure crown continuity. Thin crown density by 30% to include removal of epicormic growth and water shoots. Reason - To maintain tree at a reasonable size for its location and						
might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes). Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant. E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place. Rear Garden: Mature Apple: Reduce crown back to previous reduction points whilst preserving a suitable amount of furnishing growth to ensure crown continuity. Replant with 1 standard ash in the same plays preserving a suitable amount of furnishing gro	ected by a TPO, please number them guidance notes). ion of works. Where trees are proposals for planting replacement lace.

For all trees A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to tree is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be hadvice given on site by an LPA officer.					
For works to trees covered by a TPO Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your applica necessary evidence to support your proposals. (See guidance notes for further details)	tion m	iust be	acco	ompanied by the	
 Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall: If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert. 	0	Yes	•	No	
 Alleged damage to property - e.g. subsidence or damage to drains or drives. If YES, you are required to provide for: 	0	Yes	•	No	
Subsidence A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, and repair proposals. Also a report from an arboriculturist to support the tree work proposals.	soil, ro	oots			
Other structural damage (e.g. drains, walls and hard surfaces) Written technical evidence from an appropriate expert, including description of damage and possible s	solutio	ns.			
Documents and plans (for any tree) Are you providing additional information in support of your application?	0	Yes	•	No
