2015/7028/P	Mr J S Lock	14 Church Close Kelsale Saxmundham Suffolk IP17 2PA	10/12/2016 15:07:04	OBJ	<p>As the owner of the adjoining property, 12 Stukeley St, I still have major concerns over the potential for damage to 12 Stukeley St. During the construction phase the excavation of a basement could cause damage to the party wall and / or subsidence to the structure of no. 12. I feel that a basement development of this type in a location adjoining a property which was not designed to withstand the stresses associated with a basement excavation is wholly inappropriate.</p> <p>I respectfully request that the planning committee request a revised application without the basement excavation.</p>
