## PRODUCT SPECIFICATION

## Information correct as at 02 August 2016

Description

Product Name Hardwicke Minster Beckstone Mixture

Product Code A2428A

Quality Best CLAY FACING BRICK

Type Wirecut Extruded

Configuration Vertically Perforated

Voids **20-25** %

**Specification** (In accordance with BS EN771-1:2011/A1:2011)

Masonry Unit Group HD units Group 1 Structural

Category BS EN771-1:2011/A1:2011 Cat I

Dimensions 215x102x65 mm

Tolerance - Mean T2 +/-L4W3H2
Tolerance - Range R1 L9W6H5

Bed Surface Mean >=40.0 N / mm<sup>2</sup>

Compressive Strength

**Additional Data** 

Gross Density 1410 kg / m <sup>3</sup>

Nett Density 1890 kg/m<sup>3</sup>

Density Tolerance D1

Durability F2 Severe Exposure

Active Soluble Salts \$2

Water Absorption <=16 % by weight

Initial rate of water 1.3 kg / m<sup>2</sup>/ min

absorption - Suction Rate

Fire Reaction Euroclass A1

Water Vapour Diffusion Coefficient 50/100 mu

(Water Vapour Permeability)

Bond Strength - Fixed Value

0.15 N/mm<sup>2</sup>

Stated as Initial Shear Strength

Thermal Properties (Tabulated - CIBSE Guide A 1999/BSEN 1745)

Thermal Conductivity 'K' 0.91 W / m K

(at 5% moisture content - exposed)

Thermal Resistance 'R'

0.11 m<sup>2</sup> K/W

(at 5% moisture content - exposed)

**Handling Information** 

Dry Weight per brick 2.0 kg

Average weight of brickwork 180.0 kg / m<sup>2</sup>

(1/2 brick wall including mortar joints)

Coverage Approximately 60.0 bricks per m<sup>2</sup>

Quantity per pack 475

Pack Size (WxDxH) 720x1090x930 mm
Weight per pack (dry) 950 kg approximately

Application

Suitability To be used in accordance with BS EN1996, PD6697 and

our own recommendations

Mortar Joint Profile From a durability point of view, this product is suitable for

all common joint profiles

Movement Joints Movement joints should be incorporated in accordance with

BS EN1996, PD6697 and our own recommendations.

**Special Shapes** Special shapes are only available by the cut

and bonding method

**Quality Assurance** 

Frost Resistance This product is guaranteed for 60 years in buildings or 20

years in boundary walls. Excludes paving, steps & ramps.

All applications should be designed and constructed in accordance with the

guidance contained within BS EN1996, PD6697 and with our own recommendations.

Failure to comply will invalidate all warranties implied.

Workmanship All facing bricks are blended at works. Mixing from

Colour a minimum of three packs on site will ensure a balanced blend

of all the colours formed in the manufacturing process

Test results derived under BS EN 771-1 must be used in conjuction with BS EN1996, PD6697
