2016/6949/T	B.M. Shaughnessy	20 Kylemore Road London NW6 2PT	21/12/2016 23:48:01	OBJ	A number of close neighbours and residents have expressed misgivings about the technical justification for removal of this healthy and well maintained mature tree which is a natural amenity on a busy road with significant traffic. The information supplied does not seem to conclusively prove that the tree is causing structural harm but rather suggests an extreme remedy to a moderate overshadowing issue. We do not support the loss of green resources and trees which assist against pollution in Sherriff Road which is so near the growth area of West Hampstead and request that the TPO remain in place.
